Welcome

**From Hon. Martyn Quayle MHK,
Minister for Tourism and Leisure**

Welcome to the Isle of Man - one of the most beautiful locations in the British Isles. Its stunning and varied landscape comprises austere moorland, lush valleys and wooded glens plus sandy beaches and rugged cliffs.

Discover all these delights with our specially designed Summer Walking Festival programme. Walks can be found throughout the Island, and are timed to coincide with our public transport - including our unique Victorian era steam and electric railways.

All our walks are led by experienced leaders. They are there to ensure that the correct routes are followed as well as providing interesting information on our beautiful scenic landscape, and in many cases, our fascinating mix of Celtic and Viking Heritage. The Isle of Man's unique and varied culture is as evident today as it was thousands of years ago. Our walks will take you on a journey to uncover this amazing history throughout the week whilst you will also have plenty of opportunities to sample some of the Island's arts, folklore and cuisine along the way.

I'd like to extend best wishes to all of our walkers - please enjoy your stay and come back and see us again soon.

Enjoy!

Martyn Quayle

Coastal Challenge

CPW: Coastal Path Walk

Distance: 95miles / 152km - Grade A (Experienced Walkers Only)

The Isle of Man Coastal Path is a demanding but highly rewarding experience. This walk should only be undertaken if you are an experienced walker with the ability to average twenty miles per day over the five consecutive days. All those who start the walk should do so with the intention of completing all five days. Each day we meet at the Villa Marina for an 08:30 start, taking packed lunches and plenty of water before being transported to our day start point. At the end of each day's walk we are returned to The Villa Marina around 17:30.

We start with the stunning coastline of Marine Drive and out to the main headland coast at Meary Veg. From here we hug the coastline with views south to Langness and inland to the dramatic backbone ridge running down the centre of the Island. Our route continues to Castletown, the ancient capital of the Island and on to Port St Mary a picturesque fishing village on the south east coast where we conveniently stop at the Albert Hotel and Pub.

Day two is by far the most demanding. We immediately take the coast hugging path to the famous Chasms and the dramatic cliffs at Spanish Head. From here we see the Calf of Man and The Sound, where grey seals have taken up residence. After the Sound we again take dramatic coastal paths into Port Erin and make the steep climb up to Bradda Head followed by a steep drop into Fleshwick. However, before lunch we need to make a further height gain towards The Sloc making this a long and arduous morning walk. After lunch a long steady climb takes us to the summit of Cronk Ny Arrey Laa from where we descend again almost to sea level and finish the day along the road into Dalby.

After day two, day three is almost a stroll! We follow the coast north from Glen Maye into Peel where an early ice cream is acceptable as we stroll along the promenade having passed by the famous Peel Castle. Our coastal path takes us onto the disused steam railway line outside Peel all the way into Glen Mooar where we make our first introduction to beach walking as we walk in to Glen Wyllin which is our lunch stop at Kirk Michael. After lunch a short section of railway line leads us to the north western stretch of beach.

Day four is not for the fainthearted as we will spend a great deal of time on the sand and shingle beaches which can be both easy and difficult depending on the height of the tide. From Blue Point we can move off the beach onto the Ayres where a bird sanctuary and visitors centre has been established. After The Point of Ayre we now see Ramsey, and Maughold Head which is our goal to end this fourth day's walk.

We start the final day in the quaint village of Maughold and follow the coast to Port Mooar. We then rise over Ballajora passing an ancient burial ground before descending onto Port Cornaa beach. Joining the road at Glen Mona, we arrive in the delightful fishing village of Laxey and take lunch on the beach or by the harbour. Depending on the tide, we take the sands or road out of Laxey and on to Garwick and Clay Head. Almost home now, we take the road past Old Lonan Church to Groudle Glen and onto the final leg around Onchan Head to see the welcoming site of Douglas promenade and our finishing line!

Spotting Basking Sharks and Seals

The Manx coast is probably the best place on the planet to spot the awesome Basking Shark - the world's second largest fish. Able to grow to the size of a bus, these gentle giants love the Manx waters. Keep a look out for these mighty creatures along the south and west coasts between Castletown and Peel.

Seals are another favourite with both locals and visitors alike. These inquisitive mammals are seen all around the coast, but the best places to watch seals are the waters around the Calf of Man, Peel Castle and Maughold Head.
